Thank you! I will inform my permitting manager and the next step will be submission and then issuance! I will keep you updated along the way.

Requesting installation of private equipment for private use in PROW is typically prohibited by law, unless the private entity enters into a franchise agreement with the jurisdiction maintaining the subject PROW, so here if the Hardy Diagnostics devices are being

shared with the PD, the permitting manager would list both Hardy Diagnostics and SMPD on the application, if you approve.

Thank you,

Flock Safety is working on the permits and we would like to request if we would be able to have Santa Maria PD listed as the applicant for the permits?

Thanks!
